

I am irate to see that Sinclair has decided to air a piece on John Kerry that doesn't seem to fit with national interest or present day news, but is rather a propaganda piece interested only in upsetting our National Election. The news made over 30 years ago where John Kerry, using his very American right to speak speak out about an unjust war will only inflame the feelings once thought gone. It is not a relevant piece on the situation where we find ourself today and does not do anything but blur our election policies. In fact, one can only view it as a propoganda piece worthy of Joseph Goebbels. We supposedly have a vision of freedom and fairness in the press and our open airways media, giving two sides to every issue and then this situation pops up to give one pause. By forcing all stations owned by this company, to air this program said to be detrimental to John Kerry where political motivations appear so flagrant, one worries that such programs institute the feeling that our country is being manipulated by unforeseen hands. We ask you to please take action now!

Thank you,

Marylou and Dick Hansen
